4. Impact of taken actions to reduce the number of road accidents
5. Project summary

1.Introduction - problem and the project area

The project is implemented in the Nidzica town. There are many straight sections of road, interspersed with numerous crossroads, where drivers reach excessive speed.

There are roads in town where even frequent police checks don't reason with young drivers which speeding causes numerous collisions.

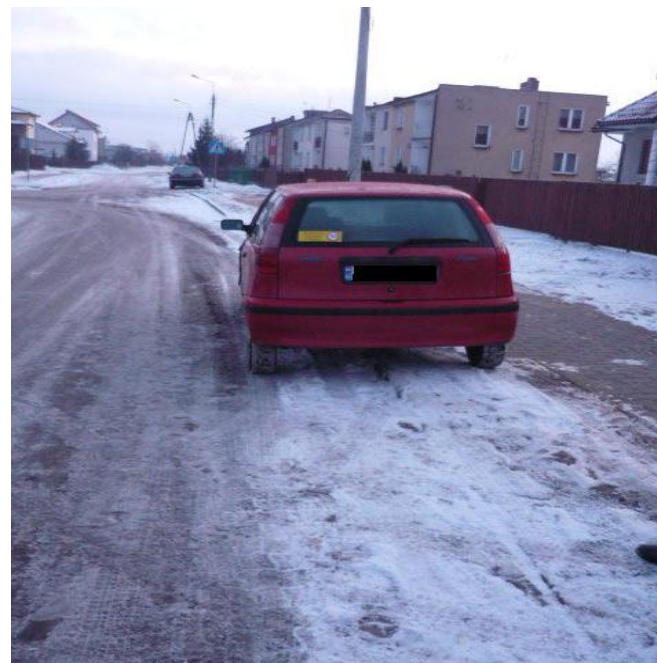

2. Stickers functioning

The main task of the sticker is to remind the driver to retain the prescribed speed.

The introduction of the sticker for the general public gives the expected results and the reduction of road accidents

3.Taken actions

- “ Conducting a survey among the inhabitants of the Nidzica Town
- “ Develop a sticker
- “ Preparation of the budget (raising money)
- “ An interview with the local police (increased control)
- “ Meeting with representatives of local authorities
- “ Producing a sticker (search for the appropriate printer)
- “ Carrying out the actual speed control
- “ The introduction of stickers for use with school friends
- “ Subsequent checks on the speed and impact of the project
- “ Completion of the project and submit final report

4. Impact of taken actions to reduce the number of road accidents

Lp.	Roads	Accidents	Collisions	Killed	The wounded
1.	National Nr 7	15-13	112-97	2-4	21-17
2.	Voivodship	15-11	72-56	3-0	14-8
3.	Municipal	13-6	93-62	1-0	20-9
4.	Nidzica Town	14-8	121-70	0-0	7-3
5.	Sum	57-38	398-285	6-4	62-37

Statistics conducted during the project in comparison with statistics from 2008.

5.Summary project

Initially deep-delayed, but eventually manages to make up for successive targets. Most difficulties encountered during the project arose in collecting the funds that I received from local sponsors - the owners of construction companies, the problem was also to produce the sticker. I think that the project was fully implemented, its simplicity it had a large impact. Work on the project has brought me much satisfaction, because I intend to continue be actively involved in improving safety on Polish roads.
